SKILLS React, Redux, Ruby, Rails, JavaScript, Node.js Express.js, PostgreSQL, MongoDB

PROJECTS

LittleJohn | Robinhood Clone: *React, Redux, Ruby on Rails, PostgreSQL*

[live](#) | [github](#)

- Ensured user privacy by securely salting and hashing users' passwords using **BCrypt**
- Implemented **Yahoo Finance API** to fetch historical and live stock information, and graphed in real-time using ReChart library
- Displayed relevant new articles utilizing **NewsAPI** and search terms through filtering and sorting stock symbols from the database
- Created pixel perfect front page including the usage of **HTML5** video tag and **CSS3**

ingredish | Search recipes by ingredients: *React, Redux, Node.js, Express.js, MongoDB*

[live](#) | [github](#)

- Led a team of four Software Developers, and organized **Git flow** for efficient pull requests and merges
- Seeded and organized recipe data through **MongoDB** shell client
- Fetched data **asynchronously** by making **Axios** promise calls
- Designed **Responsive UI** that dynamically adjusts to user's device screen size by making media query rules in CSS

bBART | Interactive BART schedules and map: *Javascript, Node.js, Express.js*

[live](#) | [github](#)

- Sorted and filtered data gathered through **BART API**, and displayed through **DOM** insertion
- Utilized **WRLD.js** library to create an interactive 3D map that populates BART stations using their geolocations
- Built the backend using **Node.js** and **Express.js** to prevent Cross Origin resource sharing when making API calls

EXPERIENCE

Business Systems Engineer

University of California San Diego

Aug 2016 - Aug 2019

- Supported over 15000 devices and users in 50+ sites throughout hospital locations and clinics
- Completed 4-5 clinic infrastructure setups a year for go-lives and audits complying with **HIPAA** regulations
- Built **shell scripts** to expedite troubleshooting which assisted with decreasing total ticket count by 20%
- Managed Enterprise full/thin clients through **SCCM/HPDM/Citrix/RDP/Casper**
- Managed **Active Directory** objects and **group policy**
- Managed Ericsson Analog and Digital phones, AASTRA VOIP phones, Polycom WIFI phones via Mitel MX, DNA Extension Manager and Communité
- Configured **Switch port/VLAN** and controlled Wireless device access through **Cisco ACS**
- Cross-connected **PBX** system via 110/66/3M/Krone panels

Certifications

CompTIA Security+	D8KVGJVJ3HKQQS57R	Nov 2022
CompTIA Network+	EGFWDFSEMH44K4BN	Nov 2022
CompTIA Cloud+	Z27YZ4SD5CB12DV1	Sep 2022
LPI Linux 010-160	LPI000398632/lw6pynqts9	

EDUCATION

University of California San Diego - *BS Electrical Engineering*
